

SAFe Scrum Master & Leading SAFe Training

SAFe Scrum Master & Leading SAFe Training

SAFe Scrum Master

In this two-day course, attendees will gain an understanding of the role of a Scrum Master in a SAFe enterprise. Unlike traditional Scrum Master training that focuses on the fundamentals of team-level Scrum, the SAFe Scrum Master course explores the role of the Scrum Master in the context of the entire enterprise, and prepares attendees to successfully plan and execute the Program Increment (PI), the primary enabler of alignment throughout all levels of a SAFe organization. This includes learning the key components of Agile at scale development, how Scrum is facilitated throughout the enterprise, and how to execute Iteration Planning.

Attendees will also discover how to build high performing Agile teams by becoming a servant leader and coach, and how to coach those teams to deliver the maximum business value at scale. SAFe 4 Scrum Master (SSM) certification signifies that people are prepared to perform the role of Scrum Master in a SAFe environment, increasing their value to teams and organizations that are implementing SAFe.

Attending this course prepares individuals to take the SAFe 4 Scrum Master exam in order to receive the SAFe Scrum Master (SSM) certification.

Learning Goals

To perform the role of a SAFe® Scrum Master, attendees should be able to:

- Introducing Scrum in SAFe
- Characterizing the role of the Scrum Master
- Experiencing Program Increment planning
- Facilitating Iteration execution
- Finishing the Program Increment
- Coaching the Agile team

Topics Covered

- Introducing Scrum in SAFe
- Characterizing the role of the Scrum Master
- Experiencing Program Increment planning
- Facilitating Iteration execution
- Finishing the Program Increment
- Coaching the Agile team

Leading SAFe

In this two-day course, attendees will gain the knowledge necessary to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework® (SAFe®), and its underlying principles derived from Lean, systems thinking, Agile development, product development flow, and DevOps. They will discuss the five competencies needed to become a Lean Enterprise. They will also learn and practice the skills for supporting and executing PI Planning events, and coordinating multiple Agile Release Trains (ARTs).

Attendees will gain an understanding of the Lean-Agile mindset, why it's so effective in today's adapt-or-die marketplace, and what it means to lead a Lean-Agile transformation. They'll also learn how to build and support Agile teams and programs, empower a Lean Portfolio, build a Continuous Delivery Pipeline and DevOps culture, and coordinate large solutions. They will develop a skillset that's in demand worldwide—and empower their enterprises to succeed in a disruptive marketplace—when they become a SAFe® 4 Agilist (SA).

Attending the class prepares individuals to take the exam and become a certified SAFe® Agilist (SA)

Learning Goals

To perform the role of a SAFe® Agilist, attendees should be able to:

- Understand the Five Core Competencies of the Lean Enterprise
- Become a Lean-thinking manager-teacher
- Apply the values and principles of a Lean-Agile Mindset
- Apply SAFe's Lean and Agile principles to the roles and practices of SAFe
- Create high-performing teams by establishing mission and purpose
- Lead the transformation with the SAFe Implementation Roadmap
- Support PI Planning and the events associated with successful Program execution
- Drive Release on Demand with the Continuous Delivery Pipeline
- Establish alignment and execution with Strategic Themes and Lean Portfolio Management
- Coordinate multiple Agile Release Trains and suppliers with a Solution Train

Topics Covered

- Introducing the Scaled Agile Framework (SAFe)
- Becoming a Lean-Agile Leader
- Establishing Team and Technical Agility
- Experiencing Program Increment (PI) Planning
- Releasing on Demand with DevOps
- Building Business Solutions and Lean Systems
- Implementing Lean Portfolio Management
- Leading the transformation

SAFe Scrum Master & Leading SAFe Training
